

SUPERJET

TRUCK MOUNTED JETTER

Sewer Cleaning
Made Easy.

 **Super Products®**

SuperJet Specifications

Designed for high pressure sewer cleaning.

- Great for municipal and residential sewer cleaning that requires jetting debris, not vacuuming
- The industry's strongest and smoothest single piston water pump
- Water tanks are rotationally molded polyethylene in a modular design that accommodates a range of water capacities

SuperJet Truck Mounted Sewer Jetters blast debris to clear blockages and maintain sewer lines with the industry's strongest and smoothest single piston water pump when vacuuming extraction is not required.

Machine Specifications

Category	Specification
Dimensions	Length: 25' 6" (approx.) Height: 10' 11" (approx.)
Drive System	1. Single Engine Design 2. Water Pump: pressure sensitive and flow compensating, hydraulically powered by the engine PTO PERFORM

Machine Specifications (continued)

Category	Specification
Water System	1. 100 gpm at 3000 psi capable double acting, pressure sensing single piston water pump
	2. Groove lock water supply plumbing
	3. 1.25" dia water supply plumbing to hose reel
	4. Dual Nitrogen charged Accumulators
	5. Adjustable engine throttle with water pressure speed dial PERFORM
	6. Pump can be serviced without removal from unit SAFETY
	7. Air Purge
	8. (2) Water Tanks, 1800 gallons water capacity - Water Tanks: rotationally molded, non-cross linked, polyethylene, recyclable PERFORM
	9. Dual water fill- ability to fill unit with water on both sides PERFORM
Additional Features	1. Adjustable Tilt Control Panel PERFORM
	2. 1000' capacity hose reel that rotates 200° and extends 60° from home position PERFORM
	3. Aluminum Rear Cabinet
	4. Corrosion resistant polymer coated subframe inside cabinet SAFETY
	5. (3) Anodized aluminum roll up doors

Options

Available Options

- Additional Water Tanks:** up to 4 more for a total of 3240 gallons of water capacity **PERFORM**
- Cabinet Heater**
- Fully Automatic Powered Level Wind** **PERFORM**
- Hose Reel Tensioning** **PERFORM**
- Hydrant Fill With Automatic Shut Off** **ECO**
- Multiple Truck Chassis Configurations**
- Rear Canopy**
- Toolbox Package** **PERFORM**
- Water Tank Side Panels**
- Winter Recirculation**
