

SUPERSUCKER

AIR MOVER

Leave The
Jobsite Spotless.

 **Super Products®**

Supersucker Specifications

Designed for high-volume, high capacity waste removal.

- High power airflow sucks up solids, liquids, sludges, and slurries
- Full Opening Tailgate with 6 latches and safety prop
- Modular Design of Bag House & Cyclone

Supersucker Air Movers provide a powerful and efficient solution for industrial cleanup. They can safely remove waste and debris, as well as recover raw materials from challenging areas.

Machine Specifications	
Category	Specification
Dimensions	Length: 33' 7" (approx.) Height: 12' 8" (approx.)
Vacuum System	1. 8" positive displacement vacuum system 2. Vacuum blower, 5800 cfm/28" hg 3. Heavy duty transfer case
Filtration System	1. Single mode filtration enables loading of wet or dry material with no changeover required PERFORM 2. Reverse air pulsation system continuously cleans the 60 snap-ring type, acrylic-coated filter bags 3. Easy filter access on top of unit for filter bag change out; bag removal through top covers, side doors for bin cleanout PERFORM 4. One large cyclone with large passage ways for greater airflow, greater performance, and greater fuel economy PERFORM

Machine Specifications (continued)

Category	Specification
Debris Body	1. 18 cu yd debris capacity
	2. Industrial powder coat finish
	3. 1/4" steel construction throughout entire body and filter chambers
	4. Body dumping is achieved by one heavy duty, telescopic double-acting cylinder that provides a 51° dump angle.
	5. The body, bag houses, and separator chamber hydraulically raise together, allowing for quick unloading of material PERFORM
	6. Full opening tailgate with two lift cylinders
	7. The hydraulic tailgate latching system is liquid tight and prevents leakage in case of hydraulic malfunction; latches are fully adjustable ECO

Options

Feature Options

- High Dump** **SAFETY**
- Air Excavation Package** **SAFETY**
- 5' Extendable Boom with 10' - 15' reach**
(Height of unit changes to 13' 2")
- Remote For Boom** **PERFORM**
- Rear LED Work Lights** **SAFETY**
- Sludge Pump**
(Length of unit changes to 35' 7")
- Stainless Steel Components:** **PERFORM**
Body, Tailgate, Baghouse, Bins, Separator, Dump Tubes
- Stainless Steel Debris Body**
- Water Washdown Kit**

Model Options

The Arctic Model:

Designed for extreme temperatures, this model ensures performance and reliability in cold weather conditions. **PERFORM**
